

Welcoming a Senior Delegation from MCC

On Tuesday April 16, CCMUP welcomed a senior delegation from the Mennonite Central Committee (MCC), in which we shared productive discussions on the promising potentials for collaboration, particularly on the intersectional subject of protecting the environment and promoting peaceful interfaith relations.

It is worth noting that MCC is an important partner to the Centre, who supported the community initiative “It’s Our Planet, Let’s Protect it” which taught school children from different backgrounds how to care for their environment and cooperate with one another in a tolerant and peaceful manner, turning diversity of background into an opportunity for mutual learning and growth, instead of conflict.
